

Reworking of missed days of Doctor Practice during its implementation is carried out in agreement with the immediate supervisor with after-hours duty at clinical bases of practice. If it is not possible to work on duty and after the completion of the production practice, reworking is held at the Simulation center by the supervisor of the specialized department according to the approved individual schedule.

In the event that a student received an unsatisfactory grade for the final examination, he must retake it before the beginning of the next semester. The second revision is carried out in the presence of the commission. The maximum grade that a student can receive for the second retaking of the final control is "3", which corresponds to 120 points.
